CONTENTS OF VOLUMES 167 & 168

JANUARY 2004—Vol. 167, No. 1

Editorial

Endurance horses and gastric ulceration – a sore point *by A.J. Higgins* 1

Guest Editorials

FMD – differentiating vaccinated from infected animals *by J.M. Scudamore* 3

Feline coronavirus – that enigmatic little critter *by D.D. Addie* 5

Horseracing: is grey the only safe colour? *by R.B. Williams* 7

Review

Developments in diagnostic techniques for differentiating infection from vaccination in foot-and-mouth disease *by A. Clavijo, P. Wright and P. Kitching* 9

Original Articles

Deafness prevalence and pigmentation and gender associations in dog breeds at risk *by G.M. Strain* 23

Prevalence of gastric ulcers in endurance horses – a preliminary report *by J.E. Nieto, J.R. Snyder, P. Beldomenico, M. Aleman, J.W. Kerr and S.J. Spier* 33

Changes in some acute phase protein and immunoglobulin concentrations in cats affected by feline infectious peritonitis or exposed to feline coronavirus infection *by A. Giordano, V. Spagnolo, A. Colombo and S. Paltrinieri* 38

Horse injuries and racing practices in National Hunt racehorses in the UK: the results of a prospective cohort study *by G.L. Pinchbeck, P.D. Clegg, C.J. Proudman, A. Stirk, K.L. Morgan and N.P. French* 45

Molecular diversity of *Moraxella bovis* isolated from Brazil, Argentina and Uruguay over a period of three decades *by F.R. Conceição, O.A. Dellagostin, F. Paolichi, A.C. Leturia and C. Gil Turnes* 53

Myosin heavy chain profiles and body composition are different in old versus young Standardbred mares *by R.A. Lehnhard, K.H. McKeever, C.F. Kearns and M.D. Beekley* 59

Effects of nutritional supplementation and exposure to bulls on resumption of post-partum ovarian activity in Bunaji (*Bos indicus*) cattle *by P.I. Rekwot, O.P. Akinpelumi, V.O. Sekoni, L.O. Eduvie and E.O. Oyedipe* 67

Rehydration fluid temperature affects voluntary drinking in horses dehydrated by furosemide administration and endurance exercise *by P. Butudom, D.J. Barnes, M.W. Davis, B.D. Nielsen, S.W. Eberhart and H.C. Schott II* 72

Intraocular oxygen tensions in normal and diseased eyes of farmed halibut *by D.L. Williams and W.M. Brancker* 81

Metabolism of tilmicosin by rabbit liver microsomes and hepatocytes *by C. Montesissa, F. Capolongo, A. Santi, G. Biancotto and M. Dacasto* 87

A quantitative study of seminiferous tubular cells in the developing Murrah buffalo testis *by B.K. Rana and G.S. Bilaspuri* 95

Short Communications

Concurrent presence of porcine circovirus type 2 and porcine parvovirus in retrospective cases of exudative epidermitis in pigs *by J. Kim and C. Chae* 104

Generalised distal limb vessel thrombosis in two cows with digital and inner organ infections *by J. Kofler, B. Martinek, A. Kübber-Heiss and P. Kübber* 107

The effect of concentrate composition on lameness and hoof health in dairy cows *by J.E. Offer, D.N. Logue, N.W. Offer and M. Marsden* 111

Book Reviews 103, 114

MARCH 2004—Vol. 167, No. 2

Editorial Announcement

The Veterinary Journal Literary Prizes 2003 *by A. Higgins* 117

Guest Editorials

Updating equine influenza strains in a combined equine influenza and herpesvirus vaccine *by A.A. Cullinane* 118

Laminitis in the 21st century – clinical awareness must include show horses *by R.A. Eustace* 121

Science, epidemiological models and decision making *by D. Pfeiffer* 123

Classification of canine lymphoma: a step forward *by J. Dobson* 125

Personal View

Predictive models and FMD: the emperor's new clothes? *by R.P. Kitching* 127

Review

Current research and theories on the pathogenesis of acute laminitis in the horse *by S.R. Bailey, C.M. Marr and J. Elliott* 129

Original Articles

Modelling and costing BVD outbreaks in beef herds *by G.J. Gunn, A.W. Stott and R.W. Humphry* 143

Efficacy and duration of immunity of a combined equine influenza and equine herpesvirus vaccine against challenge with an American-like equine influenza virus (A/equi-2/Kentucky/95) *by J.G.M. Heldens, H.G.W. Pouwels and A.A.W.M. van Loon* 150

Prognostic significance of morphological subtypes in canine malignant lymphomas during chemotherapy *by F. Ponce, J.-P. Magnol, D. Ledieu, T. Marchal, V. Turinelli, K. Chalvet-Monfray and C. Fournel-Fleury* 158

A generic spreadsheet model of a disease epidemic with application to the first 100 days of the 2001 outbreak of foot-and-mouth disease in the UK *by I. Ap Dewi, B. Molina-Flores and G. Edwards-Jones* 167

The similarity of the physical sign frequencies of bovine spongiform encephalopathy and selected differential diagnoses *by P.D. Cockcroft* 175

Parasitic helminths in the digestive tract of six species of owls (Strigiformes) in Spain *by D. Ferrer, R. Molina, J. Castellà and J.M. Kinsella* 181

Experimental comparison of ketamine with a combination of ketamine, butorphanol and medetomidine for general anaesthesia of the Eurasian badger (*Meles meles L.*) *by A.N.S. de Leeuw, G.J. Forrester, P.D. Spyvee, M.G.I. Brash and R.J. Delahay* 186

Intratesticular morphometric, cellular and endocrine changes in dromedary bulls exhibiting azoospermia *by A.A. Al-Qarawi and M.S. El-Belely* 194

Intestinal candidiasis in a loggerhead sea turtle (*Caretta caretta*): an immunohistochemical study *by J. Orós, A. Arencibia, L. Fernández and H.E. Jensen* 202

Short Communications

Immune responses to bovine respiratory syncytial virus (BRSV) following use of an inactivated BRSV-PI3-*Mannheimia haemolytica* vaccine and a modified live BRSV–BVDV vaccine *by P. Kerkhofs, M. Tignon, H. Petry, I. Mawhinney and B. Sustronck* 208

In vitro adherence and invasion of ovine mammary epithelium by *Mannheimia* (*Pasteurella*) *hmolytica* *by C.L. Vilela, J. Fitzpatrick and K.L. Morgan* 211

An outbreak of pneumonic pasteurellosis in sheep due to *Mannheimia* (*Pasteurella*) *haemolytica* serotype 7 *by M.O. Odugbo, J.O. Okpara, S.A. Abechi and P.R. Kumbish* 214

Announcement 216

Book Reviews 120, 142, 185, 201, 207, 210

MAY 2004—Vol. 167, No. 3

Editorial

Fat versus lean: the quest for beautiful buttocks *by A.J. Higgins* 217

Guest Editorials

Canine chronic liver disease: where are we now? Four pointers for future research *by J. Rothuizen* 219

The bovine digital cushion – how crucial is it to contusions on the bearing surface of the claw of the cow? *by D.N. Logue, J.E. Offer and R.D. McGovern* 220

Parturient paresis: the old problem and a new strategy *by H. Shams* 222

Fast Track

First molecular characterization of a granulocytic *Ehrlichia* strain isolated from a dog in South Italy *by L. Manna, A. Alberti, L.M. Pavone, A. Scibelli, N. Staiano and A.E. Gravino* 224

Reviews

Chronic hepatitis in dogs: a review of current understanding of the aetiology, progression, and treatment *by P.J. Watson* 228

Technologies for the control of fat and lean deposition in livestock *by M.N. Sillence* 242

Original Articles

The bovine digital cushion – a descriptive anatomical study *by M. Räber, Ch.J. Lischer, H. Geyer and P. Ossent* 258

Effect of the ionophore antibiotic monensin on the ruminal biotransformation of benzimidazole anthelmintics *by G. Virkel, A. Lifschitz, J. Sallovitz, G. Inza and C. Lanusse* 265

Diagnostic ultrasonography in cattle with thoracic disease *by M. Flöck* 272

Use of pre-partum urine pH to predict the risk of milk fever in dairy cows *by H.A. Seifi, M. Mohri and J. Kalamati Zadeh* 281

Fluorescence detection of a new photosensitizer, PAD-S31, in tumour tissues and its use as a photodynamic treatment for skin tumours in dogs and a cat: a preliminary report *by S. Tanabe, M. Yamaguchi, M. Iijima, S. Nakajima, I. Sakata, S. Miyaki, T. Takemura, H. Furuoka, Y. Kobayashi, T. Matsui, Y. Uzuka and T. Sarashina* 286

The effects of different anticoagulants on routine canine plasma biochemistry *by J.J. Cerón, S. Martínez-Subiela, C. Hennemann and F. Tecles* 294

Short Communication

Skin lesions in alpacas and llamas with low zinc and copper status – a preliminary report *by M. Clauss, C. Lendl, P. Schramel and W. Jürgen Streich* 302

Announcement 308

Book Reviews 221, 223, 301, 306, 307

JULY 2004—Vol. 168, No. 1

Guest Editorials

The mystery of guttural pouch mycosis: the paradox of advancing knowledge of a rare disease *by K.E. Baptiste* 1

The time is right for acute phase protein assays *by P.D. Eckersall* 3

Muscular dystrophies: expanding our knowledge in companion animals *by G.D. Shelton* 6

Chlamydial infections of domestic ruminants and swine: new nomenclature and new knowledge *by D. Longbottom* 9

Keratinocytes and veterinary dermatology: a century of refined culture *by J.G. Wagner* 12

Reviews

An epidemiological approach to prevention and control of three common heritable diseases in canine pedigree breeds in the United Kingdom *by J.L.N. Wood, K.H. Lakhani and W.E. Henley* 14

Current research on acute phase proteins in veterinary diagnosis: an overview *by H. Murata, N. Shimada and M. Yoshioka* 28

Postweaning multisystemic wasting syndrome: a review of aetiology, diagnosis and pathology *by C. Chae* 41

Original Articles

The activity of the feline thyroglobulin promoter is compromised by flanking adenoviral sequence *by L. Blackwood and D.J. Argyle* 50

The mystery of fungal infection in the guttural pouches *by O.M. Lepage, M.-F. Perron and J.-L. Cadoré* 60

Metabolic parameters and blood leukocyte profiles in cows from herds with high or low mastitis incidence *by K. Holtenius, K. Persson Waller, B. Essén-Gustavsson, P. Holtenius and C. Hallén Sandgren* 65

Growth characteristics of porcine chlamydial strains in different cell culture systems and comparison with ovine and avian chlamydial strains *by I. Schiller, A. Schifferli, P. Gysling and A. Pospischil* 74

A high yield method for growing primary canine keratinocytes *by A. Watson, C. Baker, J. Bailey, T. Fray and P. Markwell* 81

Electrodiagnostic evaluation in feline hypertrophic muscular dystrophy *by J. Howard, A. Jaggy, A. Busato and F. Gaschen* 87

Re-emergence of foot-and-mouth disease in Botswana *by E.K. Baipoledi, G. Matlho, M. Letshwenyo, M. Chimbombi, E.K. Adom, M.V. Raborokgwe and J.M.K. Hyera* 93

Short Communications

Conservation of the *uvrC* gene sequence in *Mycoplasma bovis* and its use in routine PCR diagnosis *by A. Thomas, I. Dizier, A. Linden, J. Mainil, J. Frey and E.M. Vilei* 100

Ultrasonographic localisation of thrombi in the caudal vena cava and hepatic veins in a heifer *by T. Mohamed, H. Sato, T. Kurosawa and S. Oikawa* 103

Book Reviews 27, 107, 108

SEPTEMBER 2004—Vol. 168, No. 2

Editorial

Transportation of horses – the vital necessity to get it right 109

Guest Editorials

Do animals suffer like us? – The assessment of animal welfare *by P. Bateson* 110

Gait analysis: Technology looking for a place to happen? *by G.R. Colborne* 112

Inherited disorders: Sustained attack from several quarters *by F.W. Nicholas and P.C. Thomson* 114

Actinabacillus suis abortion: A possible cause for concern in pigs *by Z. Woldehiwet* 116

Reviews

Animal welfare implications of neonatal mortality and morbidity in farm animals *by D.J. Mellor and K.J. Stafford* 118

Foot-and-mouth disease in camelids: A review *by U. Wernery and O.-R. Kaaden* 134

Original Articles

Aquaporin water channels AQP1 and AQP3 are expressed in equine articular chondrocytes *by A. Mobasheri, E. Trujillo, S. Bell, S.D. Carter, P.D. Clegg, P. Martín-Vasallo and D. Marples* 143

Genetic analysis of presumed inherited eye diseases in Tibetan Terriers *by K. Ketteritzsch, H. Hamann, R. Brahm, H. Gruendorf, C.U. Rosenhagen and O. Distl* 151

Reproducibility of a locomotor test for trotter horses *by C. Leleu, F. Bariller, C. Cotrel and E. Barrey* 160

Viability of equine articular chondrocytes in alginate beads exposed to different oxygen tensions *by N. Schneider, J.-P. Lejeune, C. Deby, G.P. Deby-Dupont and D. Serteyn* 167

Caprine hepatic lipidosis induced through the intake of low levels of dietary cobalt *by E.H. Johnson, K. Al-Habsi, E. Kaplan, A. Srikandakumar, I.T. Kadim, K. Annamalai, R. Al-Busaidy and O. Mahgoub* 174

Cell proliferation in feline normal, hyperplastic and neoplastic mammary tissue – an immunohistochemical study *by P. Dias Pereira, J. Carvalheira and F. Gärtner* 180

Short Communications

Actinobacillus suis, a potential cause of abortion in gilts and low parity sows *by C. Mauch and G. Bilkei* 186

Liposarcoma at the site of an implanted microchip in a dog *by M. Vascellari, F. Mutinelli, R. Cossettini and E. Altinier* 188

Leptospiral antibodies in wild felines from Rio de Janeiro Zoo, Brazil *by W. Lilenbaum, R.V. Monteiro, C.E. Albuquerque, P. Ristow, S. Fraguas, V.S. Cardoso and L.P.L. Fedullo* 191

Proceedings of the Second International Conference on the Transportation of Horses

Introduction *by C.W. Kohn* 194

Review: Pulmonary defence mechanisms and equine transport *by F.J. Derksen* 195

A1. Development of an on-board watering system for slaughter horses transported by truck *by T. Friend, R. Johnson and T. Cordes* 198

A2. Balance preservation in horses during road transport *by G. Giovagnoli* 198

A3. The effect of pre-treatment with oral electrolytes on serum cortisol and other haematological parameters in a group of feral horses transported by road *by A. Davidson, R. McConnico, M. Mitchell, J. Hubert and L. Coates-Markle* 199

A4. Practical aspects of airlifting horses by helicopter *by G. Pettifer, J. Hubert and R. McConnico* 199

A5. Changes in heart rate variability during 24 h of road transport in thoroughbred horses *by H. Ohmura, A. Hiraga, H. Aida, M. Kuwahara, H. Tsubone and J.H. Jones* 200

A6. Physiological, hormonal and immunological responses of trained thoroughbreds to road transport and exercise *by D.J. Marlin, D.A. Kingston, J. Kydd, D. Hannant, C.A. Roberts and R.C. Schroter* 200

A7. Effects of orientation, intermittent rest and vehicle cleaning on development of transport-associated respiratory disease in horses *by M. Oikawa, S. Hobo, T. Yoshihara, A. Kuwano and S. Takagi* 201

A8. Effect of long-term road transport on lymphocyte subpopulations in horses *by C. Stull, S. Spier, B. Aldridge, M. Blanchard and J. Stott* 201

A9. Findings in guttural pouch lavages of clinically normal horses restrained for 12 or 24 h *by O.A. Chiesa, R. Cuenca, J. Guarro and E. Mayayo* 202

A10. Factors influencing change in body weight of Thoroughbred racehorses during transport and racing *by S.E. Wise, M.J. Head, C.A. Roberts, J.R. Newton and F.M.D. Henson* 202

Book Reviews 159, 173

NOVEMBER 2004—Vol. 168, No. 3

Guest Editorials

Molecular mechanisms in CNS injury – The importance of therapeutic modification of cytokine expression in the brains of domestic animals *by M. Vandevelde* 205

Comparative aspects of blood coagulation – The road to new investigative fields within veterinary haemostasis *by A.T. Kristensen and A. Lundorff-Jensen* 207

Urolithasis in pig units – A gritty problem *by S.H. Done* 209

Evaluation of natural service bulls – The "other" BSE *by P.J. Chenoweth* 211

The transport of animals: A long way to go *by P.D. Warriss* 213

Reviews

Evaluation of fertility and infertility in natural service bulls *by T.J. Parkinson* 215

CNS injury: the role of the cytokine IL-1 *by R.M. Gibson, N.J. Rothwell and R.A. Le Feuvre* 230

Comparative aspects of blood coagulation *by P.A. Gentry* 238

Original Articles

Outcome of tactile conditioning of neonates, or "imprint training" on selected handling measures in foals *by S.J. Spier, J. Berger Pusterla, A. Villarroel and N. Pusterla* 252

Influence of breathing pattern and lung inflation on impulse oscillometry measurements in horses *by E. Van Erck, D. Votion, N. Kirschvink, B. Genicot, J. Lindsey, T. Art and P. Lekeux* 259

Studies on platelet aggregation using the Born method in normal and uraemic dogs *by R. Mischke and U. Schulze* 270

Whole body barometric plethysmography: a screening method to investigate airway reactivity and acute lung injuries in freely moving pigs *by D.J. Halloy, N.A. Kirschvink, G.L. Vincke, J.N. Hamoir, F.H. Delvaux and P.G. Gustin* 276

The oestrous cycle and early pregnancy – a new concept of local endocrine regulation *by T. Krzymowski and S. Stefańczyk-Krzymowska* 285

Road transportation affects blood hormone levels and lymphocyte glucocorticoid and -adrenergic receptor concentrations in calves *by R. Odore, A. D'Angelo, P. Badino, C. Bellino, S. Pagliasso and G. Re* 297

Vertical ground reaction force–time histories of sound. Warmblood horses trotting on a treadmill *by M.A. Weishaupt, T. Wiestner, H.P. Hogg, P. Jordan and J.A. Auer* 304

Disposition of norfloxacin in broiler chickens and turkeys after different methods of oral administration *by G. Sárközy, G. Semjén and P. Laczay* 312

Urolithiasis in finishing pigs *by D.G.D. Maes, J. Vrielinck, S. Millet, G.P.J. Janssens and P. Deprez* 317

Investigations on the influence of serum D-lactate levels on clinical signs in calves with metabolic acidosis *by I. Lorenz* 323

Generation and purification of recombinant bovine pregnancy associated glycoprotein *by O.V. Patel, T. Takahashi, K. Imai and K. Hashizume* 328

Age-specific seroprevalence of Border disease virus and presence of persistently infected sheep in Basque dairy-sheep flocks *by E. Berriatua, J. Barandika, G. Aduriz, R. Atxaerandio, J. Garrido and A.L. García-Pérez* 336

Short Communications

Portable haemoglobinometers and their potential for penside detection of anaemia in bovine disease diagnosis: a comparative evaluation *by J.W. Magona, J. Walubengo, I. Anderson, W. Olaho-Mukani, N.N. Jonsson and M.C. Eisler* 343

PCR assay for rapid detection of *Pasteurella multocida* serogroup A in morbid tissue materials from chickens with fowl cholera *by S.B. Shivachandra, A.A. Kumar, R. Gautam, V.P. Singh, P. Chaudhuri and S.K. Srivastava* 349

Magnetic resonance imaging of the normal brain in a newborn dromedary camel *by A. Arencibia, M.A. Rivero, J.A. Ramírez, F. Gil, C. Gutierrez, J. Orós, R. Latorre and J.M. Vázquez* 353

Pathological changes in *Sarcocystis* infection in domestic pigs (*Sus scrofa*) *by R.S. Avapal, J.K. Sharma and P.D. Juyal* 358

Announcement 362

Book Reviews 229, 258, 284, 311, 327
